ROPELLA INDUSTRY EXPERTISE

The market for chelates and chelating agents continues to skyrocket, due to their diverse array of uses. The crux of chelating agents' usefulness stems from their ability to form complex bonds with metal ions. They can be added to detergents as a water softener, prevent damage caused by toxic metals in the body (like mercury or iron) by making them chemically inert, deactivate enzymes in stored food that would otherwise lead to spoilage, aid in the separation of rare earth elements, and promote the movement of mineral uptake in crops.

Ropella's mission is to build lasting relationships between High Potential A-Player Talent, Backable CEO's, Board Members, SME's and Transformational Leaders. Our primary goal; providing ROI value towards growing the great companies we invest our time, talent and treasure into.

Building teams worldwide, in all functional areas and at all levels, with the best possible talent is one of the highest priorities for transformational leaders - because we all know - **the Team with the Best Talent Wins** Especially so, in fast growing organizations.
